Kenneth W. Dobyns : The Patent Office Pony: A History of the Early Patent Office before purchasing it in order to gage whether or not it would be worth my time, and all praised The Patent Office Pony: A History of the Early Patent Office:

The Patent Office Pony, is a chronicle of the United States Patent office from 1791, the year America's first patent law was enacted, to the present. The book concentrates on people and personalities rather than technologies and legalities.

Patent office commissioners and examiners, presidents and senators, inventors and solicitors all cross the stage in Dobyns' detailed history.
