**Paul F. Diehl : The Politics of Global Governance: International Organizations in an Interdependent World**

before purchasing it in order to gage whether or not it would be worth my time, and all praised The Politics of Global Governance: International Organizations in an Interdependent World:

0 of 0 people found the following review helpful. Good read that covers broad spectrumBy GabbyGreat wide range of topics discussed from the WTO to the issues involved with global governance. A beginners book that will get

everyone off the ground and rolling in the field of global governance0 of 0 people found the following review helpful.  
ExcellentBy JohnPurchased as a required text for a graduate level course in Global Governance. It is easy to see why this text was required by the Professor.

The Politics of Global Governance helps students of international organizations understand the major themes, theories, and approaches central to the subject. The fourth edition of this widely used anthology has been thoroughly updated with fourteen new essays to reflect the current concerns of the global system. Peacekeeping and collective security, finance and trade, and social and humanitarian issues are among the key topics covered. The editors section introductions underscore the importance of the essays, which have been selected not only for their relevance, but also for their accessibility.

Excellent... [This] may be the best contemporary reader for advanced undergraduate classes in international governmental organizations.... The level of analysis and readability of [the] choices is ideal. --Philip Meeks, Perspectives on Political Science  
About the AuthorPaul F. Diehl is Henning Larsen Professor of Political Science and University Distinguished Teacher/Scholar at the University of Illinois at Urbana-Champaign, where he also serves as director of the Correlates of War Project. His recent publications include Evaluating Peace Operations (with Daniel Druckman) and The Scourge of War: New Extensions of an Old Problem. Brian Frederking is associate professor of political science at McKendree University. He is author of The United States and the Security Council: Collective Security Since the Cold War and Resolving Security Dilemmas: A Constructivist Explanation of the INF Treaty.
