**Eric Matlin : The Procrastinator's Guide to Wills and Estate Planning** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Procrastinator's Guide to Wills and Estate Planning:

0 of 0 people found the following review helpful. Very HelpfulBy John BridgesIf you're thinking about creating a will or just curious about estate planning in general, this book is very helpful. The process is usually thought of as complicated and uncomfortable - and it is. Reading this book will help you get past that. It takes things one step at a time. It could also save you a lot of money if you read this prior to contacting an attorney.9 of 11 people found the

following review helpful. Don't Procrastinate--Read This BookBy William J. CridlandIf you're at all like me, the last thing that you want to put time aside for is planning your estate. Afterall, your lack of good planning is guaranteed to have folks crying at your funeral, especially your loved ones, who must then deal with some very costly problems and challenges due to your inaction. Why feel guilty and why worry? Just buy this very easy to read, eminently understandable guide to estate planning, and put this important task behind you. Were I were an estate lawyer, I would be passing this book out to everyone with whom I come in contact: The first thing I did, when I finished this book was to call a lawyer and finally do the right thing for me and my family.8 of 9 people found the following review helpful. Now I understand!!!By C. FarnsworthFor so many years my husband and I have been putting off taking care of our estate planning. We have two beautiful children and are definitely concerned about their future should anything happen to us. I think we kept putting off going to an attorney because we just didn't understand the whole process. After reading Mr. Matlin's book, we feel more confident and have met with an attorney and are in the process of getting our affairs in order. I really enjoyed this book because the language made sense to both my husband and me. We both highly recommend this book!!!

Everyone needs an estate plan-even the people who'd rather not deal with it. In *The Procrastinator's Guide to Wills and Estate Planning*, attorney Eric Matlin cuts through the legalese of most estate planning guides with a step-by-step breakdown of the process that can put everyone's mind at ease. Readers will learn how to: Gather the necessary records Establish the value of an estate Set up a living trust Lower estate taxes Prepare an effective Living Will and more...

About the AuthorEric Matlin, Attorney-at-Law, received his law degree from the John Marshall Law School in Chicago in 1978. He is the founding partner in the law firm of Matlin Fajerstein in Northbrook, Illinois, and an original founding director of the Greater North Shore Estate and Financial Planning Council, which provides continuing education to lawyers, estate planners, and CPAs. He has worked with thousands of families on their estate plans.
