Maureen Dabbagh : The Recovery of Internationally Abducted Children: A Comprehensive Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised The Recovery of Internationally Abducted Children: A Comprehensive Guide:

0 of 0 people found the following review helpful. A Must Read, Great Resource Material and InformationBy Alice

Moise This is a how to book and gives a step by step on what and how to proceed should this horrible situation ever effective love ones. More important it helps to give a clear picture of who must take the lead and keep the wheels of international governments and agencies working for you and your child depending on their missions and capabilities concerning International Kidnapping. Past Experiences given helps one to understand the struggles of individuals who have already been through the fight for their children. Let's protect the children! 0 of 0 people found the following review helpful. A Must Read By Peter J. Psyllos If you are unfortunately searching for this book, then it is a must read. It is easy to read, unlike the volumes of text you can find on the net. It is very comprehensive, covering all types of scenarios. Buy this book, and God Bless the author!!! 0 of 0 people found the following review helpful. Excellent information By Visser Excellent information if you are interested in Child Abduction rescue. Will recommend it to anyone who is interested in the topic.

This work focuses first on prevention and then on initial steps to take if an abduction happens. Resources such as police, the State Department, the courts, and private agencies are covered next. A detailed overview is given of organizing and coordinating the search for a child, followed by coverage of support services and an examination of existing law on both the federal and international level.

"appropriate for all public libraries and those...that support legal and psychological studies...conveniently provides one source for many useful references" -- ARBA "provides advice and explanations which have universal application. ...it has an excellent section on what can (or cannot) be achieved through diplomatic channels...an excellent directory of names and addresses" -- Family Law
