The examples can be a little hard to follow and not have enough information on a certain topic. However, with this, the Bluebook, UMB, and Coregrammarforlawyers.com (highly recommend) you should be set!!10 of 10 people found the following review helpful. Content richBy kevin massaroThis book is the bible for legal style. If this book were a dessert, it would be 20,000 calories. It is that rich in content. A must have for any law firm, and for young and old lawyers who either are learning to write, or need some help.3 of 3 people found the following review helpful. EssentialBy Jesse MedlongAnyone familiar with Garner's work will be unsurprised by this pithy, essential guide to legal writing. If I see lawyers do something two different ways, I refer to this book to find out which is right. You can be a good lawyer without being a good writer, but it's certainly easier to be a good lawyer if you are a good

writer. You owe good writing to your readers, whether judges, clients, or other lawyers.

Since the first edition was published in 2002, The Redbook has established itself as the most authoritative, comprehensive, and easily usable manual of legal style. Written by Bryan A. Garner, with contributions from all six lawyers at LawProse Inc., The Redbook covers everything that mere citation manuals don't and can't: punctuation, capitalization, grammar, prose style, and clarity in general. The Redbook is an eminently usable reference book. Written in the style of a restatement, the black-letter rules are followed by exhaustive comments and illustrations.
