**National Research Council, Policy and Global Affairs, Board on International Scientific Organizations, Office of International Scientific and Technical Information Programs, Steering Committee on the Role of Scientific and Technical Data and Information in the Public Domain : The Role of Scientific and Technical Data and Information in the Public Domain: Proceedings of a Symposium** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Role of Scientific and Technical Data and Information in the Public

Domain: Proceedings of a Symposium:

This symposium brought together leading experts and managers from the public and private sectors who are involved in the creation, dissemination, and use of scientific and technical data and information (STI) to: (1) describe and discuss the role and the benefits and costs--both economic and other--of the public domain in STI in the research and education context, (2) to identify and analyze the legal, economic, and technological pressures on the public domain in STI in research and education, (3) describe and discuss existing and proposed approaches to preserving the public domain in STI in the United States, and (4) identify issues that may require further analysis.
