Margaret Pegi S. Price : The Special Needs Child and Divorce: A Practical Guide to Handling and Evaluating Cases before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Special Needs Child and Divorce: A Practical Guide to Handling and Evaluating Cases:

0 of 1 people found the following review helpful. Five Stars By Tiger Very useful book to prepare yourself and your counsel.

Families with special needs children have much higher divorce rates and cases involve specialized handling. This book examines what lawyers can do to make the family court system work better for these children and their families. Filled with practice tips, the book includes forms modified to address issues raised by a special needs child. Includes sample forms and documents, checklists, resource materials, and contact information for organizations and state agencies. Includes forms CD-ROM.

If you have never handled a divorce with a special needs child, Price's book will benefit you greatly. The book includes a disk with all the forms and checklists so that you can adapt them to your particular case immediately. --Sarnacki, Mich Bar pub
