**From American Bar Association : The Technology Transfer Law Handbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Technology Transfer Law Handbook:

The Technology Transfer Law Handbook is an invaluable resource for practitioners serving the technology transfer community, delineating the full scope of recent developments and how they affect technology transfer operations in unique and unexpected ways, as well as presenting new challenges and opportunities. The handbook covers a broad range of essential topics, including the following: Post-grant proceedings under AIAManaging patent

prosecutionPatenting diagnostic testsUniversity patent enforcementLicensing of federally supported subject inventionsApproaches to managing patent filing costsBiotech licensingThe university as a venture investor

About the AuthorElizabeth Rodriguez is Senior Counsel for Research and IP for the University of Massachusetts in Boston. Sean Solberg is a patent attorney at the David Brown Law Firm in Des Moines, IA.
