Eric Posner : The Twilight of Human Rights Law (Inalienable Rights) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Twilight of Human Rights Law (Inalienable Rights):

0 of 3 people found the following review helpful. Five Stars By Customer Excellent reading 1 of 10 people found the following review helpful. Three Stars By Konga76 Posner is a lawyer and tends to view human rights from this perspective. 1 of 17 people found the following review helpful. this puts an end to the myth of Human Rights ... By erojothis puts an end to the myth of Human Rights and the farcical Human Rights Watch and all its hypocrites.

Countries solemnly intone their commitment to human rights, and they ratify endless international treaties and conventions designed to signal that commitment. At the same time, there has been no marked decrease in human rights violations, even as the language of human rights has become the dominant mode of international moral criticism. Well-known violators like Libya, Saudi Arabia, and Sudan have sat on the U.N. Council on Human Rights. But it's not just the usual suspects that flagrantly disregard the treaties. Brazil pursues extrajudicial killings. South Africa employs violence against protestors. India tolerate child labor and slavery. The United States tortures. In *The Twilight of Human Rights Law*--the newest addition to Oxford's highly acclaimed *Inalienable Rights* series edited by Geoffrey Stone--the eminent legal scholar Eric A. Posner argues that purposefully unenforceable human rights treaties are at the heart of the world's failure to address human rights violations. Because countries fundamentally disagree about what the public good requires and how governments should allocate limited resources in order to advance it, they have established a regime that gives them maximum flexibility--paradoxically characterized by a huge number of vague human rights that encompass nearly all human activity, along with weak enforcement machinery that churns out new rights but cannot enforce any of them. Posner looks to the foreign aid model instead, contending that we should judge compliance by comprehensive, concrete metrics like poverty reduction, instead of relying on ambiguous, weak, and easily manipulated checklists of specific rights. With a powerful thesis, a concise overview of the major developments in international human rights law, and discussions of recent international human rights-related controversies, *The Twilight of Human Rights Law* is an indispensable contribution to this important area of international law from a leading scholar in the field.

"*The Twilight of Human Rights Law* is an important assessment of human rights law, useful for human rights scholars in general, persons interested in European Union law or anyone who desires a current analysis of human rights law." - Yasmin Morais, University of the District of Columbia Law School, *DipLawMatic Dialogues* "...Mr. Posner's skepticism is bracing, and his claims usefully force readers back to the question of what we mean when we talk about human rights." -- *Wall Street Journal*"Posner makes a strong case that human rights law needs to be approached with more care, more humility, and less hubris." - *Reason.com*
About the AuthorEric A. Posner teaches at the University of Chicago. He has written nine books and more than one hundred articles on international law, constitutional law, and other topics. He has written opinion pieces for the *New York Times*, *Wall Street Journal*, *New Republic*, *Slate*, and other popular media.
