**Priscilla Pelgen : The Ultimate Pre-Divorce Playbook for Men** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Ultimate Pre-Divorce Playbook for Men:

1 of 1 people found the following review helpful. The title says it all By Book Reader There's some good, solid information here. We all know the family law system is flawed and hopelessly one-sided in favor of women. What this poor guy went through himself is beyond description. This book also poses some questions which are good to consider before embarking on a divorce. If you're looking for a good book with a "been there, done that" outlook, this is for you. It's not a legal tome, it isn't legal advice. It's 'watch out if you see this tactic coming'. I liked the ending of the

book where he outlines the various ploys you can expect to see, and what you can do in those situations.

Priscilla Pelgen delivers vital knowledge men need before they hire a lawyer for their divorce. This book answers what documents you need before you leave your home; what the most important hearing of a divorce case is; how to read lawyer advertising; what questions you should ask a lawyer before you make an appointment and much much more.
