I was astounded, I would have paid more had I looked at this book closer. I wanted to do my own will, and usually most books or other resource

discourage that without a lawyer. Of course the first few pages in this book say that, so I was afraid I would be disappointed, but I wasn't....I read on. It is 361 pages that explain Wills, Assests, Guardians, etc in detail with examples of different kinds of forms. There is also a section that helps you decide which kind of will would be best for you, like if you have children under 18 or not. At the end there is a section on updating your will. One of best things that I learned from this book is to file it with the probate court...that way I don't have to put it in a safety deposit box.0 of 0 people found the following review helpful.
