Jürgen Basedow, Wolfgang Wurmnest : **Third-Party Liability of Classification Societies: A Comparative Perspective (Hamburg Studies on Maritime Affairs)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised **Third-Party Liability of Classification Societies: A Comparative Perspective (Hamburg Studies on Maritime Affairs)**:

0 of 0 people found the following review helpful. A Good Comparitive Amongst "Flag State, Class and Shipowner"By Naseem AhmedThis book is the best book about classification societies, its role in merchant marine and importance in shipping industry. Author also covered the sectors of civil liability, Insurance, Underwriting, Loss adjusters and many other related terms and conditions.This book not only to represent the classification societies but also to helpful for the related matters and issues which concern to classification of ships.Naseem AhmedChief Executive/ResearcherNiha Merchant Marine Servicesinfo@nihamarine.com[...]I also recommend to read these books too.Third-Party Liability of Classification Societies: A Comparative Perspective (Hamburg Studies on Maritime Affairs)The Liability of Classification Societies (Hamburg Studies on Maritime Affairs)

With the worldwide upsurge of lawsuits against classification societies, their liability towards third parties has become one of the most contentious issues in contemporary maritime law. Against this background, the authors analyze potential third-party claims and examine to what extent classification societies may limit their liability. The study highlights the development in Australian, English, French, New Zealand, U.S. and German law.
