Gary Watt : Todd Watt's Cases and Materials on Equity and Trusts before purchasing it in order to gage whether or not it would be worth my time, and all praised Todd Watt's Cases and Materials on Equity and Trusts:

In a subject that is heavily case law based, the content of Todd Watt's Cases and Materials on Equity and Trusts provides an essential reference source for students. The ninth edition contains an impressive range of relevant and interesting case law, statutory material, academic writing, and official proposals for law reform. Where appropriate, legal materials are accompanied by non-legal literary texts with a view to making legal points more interesting and

memorable. Gary Watt continues to combine rigorous scholarship with a student-focused approach in his choice of materials and his associated commentary. The book uses key features as tools to assist students' learning and revision, including questions, suggestions for further reading, and notes.

` from previous edition For anyone looking for an equity and trusts cases and materials text, Todd and Watt's Cases and Materials on Equity and Trusts is a very good option.
