I followed this sad story via Facebook and I can still get angry about this story. You will too. It's not a large book, but it might take longer to read it through your tears. This is a book that needs to be read by all animal lover because of the type of behavior in the so called

legal system needs to change. Read and share. You won't be sorry for ordering this book. 1 of 1 people found the following review helpful. Five Stars By iris lambka Wonderful story Sadly something must be done to PROTECT our beloved Pit Bulls Any dog lover should purchase this book and help us SAVE PIT BULLS They have a bad rap and have done nothing wrong It is all about the owners I have owned them My son has a girl 13 yrs old now They are the most loving, kind, caring dogs you would ever want to meet !! This story just blew me away How sad for Tony and his owners Shame on that judge { but not really a judge } who sentenced Tony to death His death will come back to get her Thank You. iris 3 of 3 people found the following review helpful. Gone, but not forgotten! Tony, you will be forever loved worldwide! By Susan Harrison A touching recount and moving chronicle of Tony's, a victim of BSL legislation. He did not have to die, but was given a death sentence based on bias testimonies and lies. So sad! His story is just one of many dogs who was born the wrong breed, something of no fault of their own. It is thought provoking! I hope his story will bring about change in the laws to protect these wonderful and loyal breed of dogs and open the eyes of those who don't understand pitbulls or pitbull mixes. There is no such thing as a bad dog, just uneducated or irresponsible owners.

Imagine being wrongfully accused of a crime, taken from your home, and locked up Relive the compelling 2012 case of a dog named Tony, court ordered to be euthanized in Clifton, Arizona. This was the story that shocked the world and raised public outcry over judicial murder and how breed specific prejudice has gone too far. About the author:
