This manual, produced by NCCAN as part of the User Manual Series, provides an overview of the treatment of sexually abused, physically abused, and neglected children. Child development is briefly reviewed and the study of developmental psychopathology is described. All aspects of child development are considered, including intrapersonal development, interpersonal development, physical development, sexual development, and behavioral conduct development. Consequences of abuse and neglect, assessment of maltreatment, the therapeutic process and the role of

the therapist, treatment issues and specialized interventions, and case management are addressed.
