Emma Chamberlain, Chris Whitehouse : Trust Taxation: Planning After the Finance Act 2006 before purchasing it in order to gage whether or not it would be worth my time, and all praised Trust Taxation: Planning After the Finance Act 2006:

This title provides practical, easy to understand guidance on trusts taxation following recent modernisation of the law in this area, explains the new tax regime as it applies to trusts, and covers income tax, capital gains tax and inheritance tax. It shows how the taxes now apply and uses example tax calculations and scenarios to make a complex subject clear. It also explains how to review current trust arrangements and what action to take if necessary and sets out the best tax planning techniques for specific situations - including the family home, family companies, pensions, wills and deeds of variation, trusts for minors and charitable trusts. It provides a selection of precedents for use in common situations, includes the relevant legislation so it can be consulted easily. It is written in a clear style accessible to the non-specialist practitioner.
