George Bogert : Trusts (Hornbook) before purchasing it in order to gage whether or not it would be worth my time, and all praised Trusts (Hornbook):

0 of 0 people found the following review helpful. Five StarsBy MCAllenExcellent reference tool.0 of 0 people found the following review helpful. A good book about the trustsBy Chen Wei KaiThis book written very much things about the trusts, it's really a "student" edition, so... that just introduced the trust to student; about the note, because it's a older book, so the type of note is very "classic" - very simple, maybe you can't find the book, article...etc. but, it's not a big problem, because the book tell us that what is trusts. (but I don't agree some point in the book, but it's academic problem, not in the review).2 of 2 people found the following review helpful. A handy (if dated) referenceBy Dan LobnitzI found this book to be a great resource when plowing my way through trusts estates in law school.It's a

hornbook. How can any law student survive without pouring through a hornbook? I'd buy it again, and I'll hang on to it. Dan Lobnitz - University of Denver College of Law (2L)

Authoritative text provides concise, up-to-date explanation of the laws and rules governing the creation, enforcement, administration, and termination of trusts. Includes coverage on voluntary trusts, charitable trusts, and trusts created by operation of law, as well as those applicable to similar fiduciary relationships. In addition, numerous references are made to current state statutes relevant to particular subject areas, and to widely adopted state statutes such as the Uniform Probate Code. Also contains federal statutes such as the Employee Retirement Income Security Act (ERISA).

About the Author Was a practicing lawyer applying the law of one or more states; Professor Scott was a teacher in a national law school finding the common law of trusts a reality. See Competition table following this sections -Why the owner of Scott needs Bogert
