Alastair Hudson : Understanding Equity Trusts before purchasing it in order to gage whether or not it would be worth my time, and all praised Understanding Equity Trusts:

Understanding Equity and Trusts is a sister text to Dr Hudson's heavyweight textbook Equity and Trusts, aiming to give those unfamiliar with the subject a clear, accessible, readable and comprehensive overview of the main themes in this dynamic area of the law. Whether used at the beginning of studying this field, as an aid to study or in the period

before examinations, this book gives the reader an invaluable grounding in all of the key principles of equity and the law of trusts. This book covers all of the topics that a student reader will encounter in any trusts law or general equity course. The text deals with express trusts, resulting and constructive trusts, the duties of trustees, breach of trust and tracing, commercial uses of trusts, charities, pensions and trusts of homes. It also contains a treatment of equitable remedies, which is new to this edition. The law of trusts is built on simple basic principles. The approach of this book is to begin with a clear presentation of those principles before guiding the reader through the more complex issues which are the feature of examinations in this subject. The lively text includes a large number of straightforward examples to make the discussion of the general law more accessible.

From the Publisher This text is an essential item for all students of Equity and Trusts. With a subject which is naturally confusing and infinitely detailed, this book acts as a formidable guide through the foundational elements of the laws of equity. Written with intense enthusiasm and deep understanding of the inherent complexity of the law, the author provides a refreshing summary of the basics, including many social, commercial and political considerations, which enhance the context of the subject. We strongly recommend this work to all involved in Equity and Trusts! About the Author Alastair Hudson is Professor of Equity Law at Queen Mary, University of London.
