Great Study BookBy chenderson76This book is absolutely a great companion to any Torts textbook. It gives very in depth explanations of rules an laws. I like it a lot.

This Understanding treatise is the perfect complement to first-year tort courses and is suitable for use with any tort casebook. Concise and authoritative, Understanding Torts features: Comprehensive and up-to-date coverage of intentional torts, privileges, negligence, cause-in-fact, proximate cause, defenses, joint and several liability, damages, strict liability, products liability, economic torts, malicious prosecution, abuse of process, defamation and invasion of privacy. Judicious use of footnotes to provide full, but not overwhelming, primary and secondary support for textual propositions. Clear organization and writing to enhance understanding of basic concepts and major cases covered in a torts course. In-depth analysis of topics that generate the greatest confusion and controversy.
