William Perry Pendley : Warriors for the West: Fighting Bureaucrats, Radical Groups, And Liberal Judges on America's Frontier before purchasing it in order to gage whether or not it would be worth my time, and all praised Warriors for the West: Fighting Bureaucrats, Radical Groups, And Liberal Judges on America's Frontier:

Pendley is a brilliant and gutsy attorney whose organization...the Mountain States Legal Foundation...has done more to fight tyranny than any entity. Lots of painful

history here...and it aint over. EPA is today gearing up to take more of what you own...whether in Wyoming (95% owned by the government) or downtown Seattle. A must read for every American who want to fight to save America.0 of 0 people found the following review helpful. Will open your eyesBy LelandGThis book tells of government strong arming the western states and peoples, interventions, and outright bulldoxing of our rights. A real eye opener.1 of 2 people found the following review helpful. Great book.By Another pigeonGreat book. Okay. Let's go....What's this? 15 more words required? What?!!?!?! With dramatic storytelling and hard-hitting facts, former Marine, Capitol Hill lawyer, and Reagan Administration official William Pendley puts human faces on Westerners' historic and often precedent-setting fights against big government.

"The issues in this book not only remain unresolved, most can be found on the front pages of today's newspapers." -- Al Knight, Denver Post ColumnistPendley does not just describe. He analyzes, explains, educates, especially in the arcane areas of the law. -- Professor Jack Stauder, University of Massachusetts DartmouthFrom the Inside FlapWhy Do Americans, and Particularly Westerners, Feel Less Free? What Happened to Our Constitutional Liberties and the Rule of Law? Congress enacts ambiguous statutes demanded by radical groups; federal bureaucrats implement those laws as the groups demand; then, out-of-control activist judges, in lawsuits brought by those groups, interpret the laws as those groups insist. Meanwhile, others in Congress, the Executive, and the Judiciary do nothing! The results are frustratingly infuriating, frightening, and flat wrong: John Shuler of Montana killed a grizzly bear in self-defense, then feds prosecuted him for eight years using the Endangered Species Act. Bobby Unser nearly died in a blizzard on a snowmobile trip, then feds charged him with the "crime" of accidentally entering a wilderness. John Bernts mining claims were voided when bureaucrats back-dated documents then they and government lawyers and judges lied about it. Clinton officials demanded that western counties gerrymander voting districts to ensure election of minorities, then Bush lawyers joined in. Clinton closed millions of acres by designating them as monuments (and thus off-limits to humans) in violation of federal law then Bush lawyers defended Clintons actions. Officials barred the public from federal lands American Indians call "sacred" while all signs of Judeo-Christian religion are forbidden. With energy prices soaring, bureaucrats and judges closed gas-rich lands after some people said development would cause them "psychological harm." Congress orders the seizure of private land for recreation, but when land owners seek "just compensation," federal lawyers stonewall. With the Supreme Court on the verge of ending government racial quotas, Bush lawyers killed the case, ensuring decades of race-based politics. When Congress refused to stem the tide of illegal aliens, the ACLU and MALDEF sued to bar grassroots initiatives from protecting taxpayers. In Warriors for the West: Fighting Bureaucrats, Radical Groups, and Liberal Judges on Americas Frontier, William Perry Pendley puts human faces on westerners historic and often precedentsetting fights against: Environmental laws "Lying and cheating" bureaucrats and their ethically challenged lawyers Clintons attacks on logging, mining, and energy exploration Government as a bullying bad neighbor Criminalizing everything for "environmental protection" Seizure of "private property" for "public use" without "just compensation" And much, much more No one escapes Pendleys well-documented truth telling. All are held accountable: Congress, bureaucrats, extremist groups, and activist judges.About the AuthorWILLIAM PERRY PENDLEY is president and chief legal officer of Mountain States Legal Foundation and has litigated against the United States at the U.S. Supreme Court and numerous federal courts of appeal.
