3 of 3 people found the following review helpful. Must-have for every physician group By Greg I haven't yet had the

pleasure of being named in a malpractice case, but I pull this out before every deposition or trial. I've also loaned it to several of my partners who found it useful. 1 of 1 people found the following review helpful. A life saver! By shoegal Wonderful book and left me feeling prepared and secure about the upcoming deposition. A must read for any doctor whether or not you are involved in a lawsuit, as great pointers for better communication with patients. 3 of 3 people found the following review helpful. Excellent By Lampros All doctors must have it even if never have a litigation experience because it describes so good the whole process even from doctor's point of view!

Written for health care professionals to prepare themselves for a deposition or trial testimony in a medical malpractice lawsuit. Focuses on listening, answering questions effectively, and avoiding common legal traps. Also covers related topics such as who is at high risk for lawsuits, the emotional toll, and coping strategies.
