Mr Robert D. Fish Esq : White Space Patenting: The Inventors Guide to Great Applications before purchasing it in order to gage whether or not it would be worth my time, and all praised White Space Patenting: The Inventors Guide to Great Applications:

Shows how to draft patent applications using a far superior market orientated approach, rather than an invention-oriented approach. The question is not "what did you invent "but what do you want to stop competitors from doing?" Written with a conversational style and numerous examples, the book teaches how to write dominating patent

applications.
