Paul G. Haskell : Why Lawyers Behave As They Do (New Perspectives on Law, Culture, and Society) before purchasing it in order to gage whether or not it would be worth my time, and all praised Why Lawyers Behave As They Do (New Perspectives on Law, Culture, and Society):

Over the past five years, the American Bar Association and legal educators themselves have been expanding the discussion of professional responsibility. Traditionalists state that lawyers must maximize the gain for their client regardless of whether that means turning a blind eye to behavior or facts which may serve justice but hinder the client's case. In *Why Lawyers Behave as They Do*, Paul Haskell explains the professional rules that govern how lawyers behave and which permit or require conduct that laypersons may find unethical. In his criticism of the traditional role of lawyers, Haskell proposes an alternative and controversial model of behavior.
