Armond Budish : Why Wills Won't Work (If You Want to Protect Your Assets): Safeguard Your Estate for the Ones You Really Love before purchasing it in order to gage whether or not it would be worth my time, and all praised Why Wills Won't Work (If You Want to Protect Your Assets): Safeguard Your Estate for the Ones You Really Love:

2 of 2 people found the following review helpful. Food for thought re: estate planning
By Aggie '61
My estate is relatively small; and I am single with two amicable daughters. Consequently I have been content with a well crafted Will. I found this book an interesting read as the author described some of the avoidable snarls created by unexpected events, e.g. accidental death of a daughter, divorce, in-law rivalries, law suits, etc. While the book seems weighted toward an expensive legal set of documents, it is in fact balanced. I do not feel steamrolled into a panic move. The author appears to give a balanced view for small, medium, and large estate planning. I'm glad I read it through. I plan to read it again before making any expensive changes. I advise anyone to read it all, don't stop midstream.

Advice
The book provided a good explanation of why it is important to review all aspects of having a will or trust.

This book will give you some new thoughts on the old Will...now you can leave the money to your children and it will go to them, and will not be subject to any other legal action. A Safe Will...about time we had something like this.

For most people drawing up a will, making sure their inheritance is secure for their spouse, children, grandchildren, or other family members is a top priority. And though they may think they're taking care of their loved ones' future with the traditional planning a will offers, the reality is that down the line their designated heirs may never see a dime. As attorney and estate-planning expert Armond Budish explains in *Why Wills Won't Work*, good estate planning in the twenty-first century requires more than the old "one size fits all" approach of filling out a few legal documents. In this book, he illustrates his customized SAFE method—the only solution that will Safeguard Assets for your Family Exclusively. Beginning with an assessment quiz that helps readers determine their particular needs, risks, and goals, along with the options available, *Why Wills Won't Work* addresses: - how to protect a child's inheritance in a divorce; - the steps to take now to avoid death taxes later; - how to safeguard an inheritance for grandchildren; - how to keep probate court, creditors, and potential lawsuits from depleting an inheritance; - how to plan in advance for a disabled child or one who can't manage money; and - what documents you really need, and how to choose a lawyer. Easy to follow and reader-friendly, with illuminating real-life stories throughout, *Why Wills Won't Work* is the essential guide for readers who want to be sure now that their family's future inheritance is airtight.

About the Author
Armond Budish is a nationally known award-winning consumer journalist and attorney, and a pioneer in estate planning and elder law, who was recently elected to the Ohio State House of Representatives. He is the host of a weekly television show, *Golden Opportunities*, which airs on the Cleveland's NBC affiliate station, and he writes the weekly syndicated column "You and the Law" featured in the *Cleveland Plain Dealer*, *The Columbus Dispatch*, and other newspapers. A regular lecturer on estate planning and law, Budish lives in Cleveland.
