Stanley Johanson : Wills and Trusts (Law School Legends Audio Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wills and Trusts (Law School Legends Audio Series):

This is a set including 6 audio disks and a 50 page or so handout. As that set, it's great, and it will teach you most of the basics of Trusts and Estates law that you need. However, the audio is heavily dependent on the handout, and you really need to look at the handout while you listen to the audio to get the full effect. Recommended for someone who wants an easy way to learn the basics. Not recommended for someone who wants a stand-alone audio lecture.

I enjoy these lectures. Professor Johnson is entertaining and memorable. I booked Decedents' Estates (the only course I booked in law school), and I believe these lectures greatly contributed to my understanding of the material.
