Using an effective ""learn by doing"" approach, Wills, Trusts, and Estates for Legal Assistants emphasizes examples

and applications, and includes hundreds of real life situations with detailed explanations. Students understand what the rules of law mean and how they apply in a real world context. The complete topic coverage introduces wills and trusts, intestate succession, estate administration, nonprobate transfers, and other estate planning issues such as taxes and malpractice. A balanced, experienced author team skillfully blends theory with practice. Extensive pedagogy reinforces the text, with marginal terms and a glossary, ethical points, checklists, practice tips, and sample forms. The instructor's manual provides a summary of chapters, a model course outline, exam questions, assignment ideas, exercises, and a research guide for wills, trusts, and estates. The Fourth Edition has been brought up-to-date, reflecting recent developments such as the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 and its impact on Federal gift, estate, and generation-skipping transfer taxes. The 2008 amendments to the Uniform Probate Code are presented along with important new material on trust protectors, the rights of same-sex partners, and physician-assisted suicide.
