Molly Murphy, Molly Murphy Rn Cpmhn(c) : Winner Take All: A Woman Exposes the Violation of Men's Rights at the Hands of Family Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Winner Take All: A Woman Exposes the Violation of Men's Rights at the Hands of Family Law:

2 of 3 people found the following review helpful. The book should have been titled, "Evil Take All" By BookManMolly Murphy presents horrifying stories of what Canada does to men following a divorce. When I first ordered this book, I almost canceled it after I realized that it was not about the evil that men are subjected to in the United Socialist States of America but, as there is very little on this topic, I decided to get the book anyway. Having now read it, I can say that the stories of men being terrorized in Canada are EXACTLY the same as what happens in the US: children are routinely ripped from their fathers by a corrupt government/court/legal system that is overrun with radical feminazi misandrists, good loving fathers are financially raped for child support and literally left with nothing to survive on, and the human rights abuses against innocent men destroys their lives and causes unimaginable suffering. While Murphy focuses on the stories of just three men - Bill, Adam, and Rick - she covers all the bases as far as how good men are literally terrorized to death (sometimes literally) and the unfathomable lack of concern by a society that routinely turns a blind eye on the plight of fathers while, at the same time, exalts that badge of honor called "single mothers." The fact that this book was written by a woman who actually has some compassion for men is certainly praiseworthy. This book provides a highly accurate and disturbing portrait of the veritable terrorism against men by the divorce industry (and it is an industry) all over the world. Something needs to be done now. 1 of 2 people found the following review helpful. A true eye opener of how Canadian Family Law treats fathers and children of divorce. By SmallcentsMolly Murphy's book "Winner Take All", is a true confirmation that the Family Law System abuses and neglects fathers of divorce. Having a family member going through a divorce, I have also witnessed how the Family Law Act can break down a wonderful father; totally strip him of all of his pride, finances, rights, home and a great relationship he had with his children. The book explains how fathers can lose everything and have to sit back and watch the ex wives, lawyers and court systems suck everything out of them that might be left. Molly's book tells us of 3 men close to her that have tragically gone through the unethical divorce path from our Canadian Legal System. These fathers have dealt with parental alienation, ex wives ignoring court orders, being falsely accused of abuse while ex wives continue to get away with it. The book exposes the hushed fact that Fathers are becoming homeless and some even committing suicide from the way they are handled within the Family Law System. While reading this book you will be drawn into feeling all of the sadness, disgust, heartache and abuse that these fathers go through. A reader will be changed forever. I believe Molly's book should be read by every young man entering into a relationship or already in one. Thank-you Molly for writing this book! L.B. (name withheld for the safety of the children)

Are you a man who still believes that today's system of family law will guarantee you a fair and amicable separation if you get divorced? If so this book will shatter your world. The reality is that every day, men scream of discrimination at the hands of family law, of being financially extorted by our legal system to the point of poverty and being routinely denied access to their children. Judges, lawyers, politicians, and even some ex-wives scoff at this notion. So who's telling the truth? But more importantly, who's hiding it? The book "Winner Take All" lets you be the judge, by giving you a front-row perspective into the actual divorces of three men. Walk with them on their journeys, witness raw human emotion, bankruptcy, attempted murder, and much more. With more twists than a good murder mystery, this is definitely family law exposed as never before. "A powerfully written and emotionally moving book which exposes the injustice, pain, and human suffering that lies at the heart of our broken family law system." - Barbara Kay, columnist, National Post Visit our website at [www.changefamilylaw.com](http://www.changefamilylaw.com)
