Calling all Executors...By Therese H ThomasThe author is an extremely experienced tax preparer who has encountered clients who have suffered through the trials of being an executor. This book will help those creating a will as well as those who have already been named as executor. Legal pitfalls, timelines for expected execution, traps from disgruntled heirs, tax code areas and many other problems are discussed. No situation is without problems, but this book will go a long way in preventing sleepless nights of those with the legal and fiduciary responsibility created by a will.1 of 1 people found the following review helpful.
